

Phone conference held December 18

Minutes

On December 18, 2006 members of CFED held a brief phone conference on the single issue of the scope and language of an upcoming request for proposals (RFP) for strategic economic planning services. The goal is for the RFP to be advertised in early January. Until that time, details are not available in order to protect against any one prospective bidder gaining an unfair advantage over others by obtaining notice in advance of the public advertisement of the RFP.
